

SQL Practice1 – Selecting, Filtering, and Sorting Data

Use the *sams_textbook* database on the Blackboard course website.

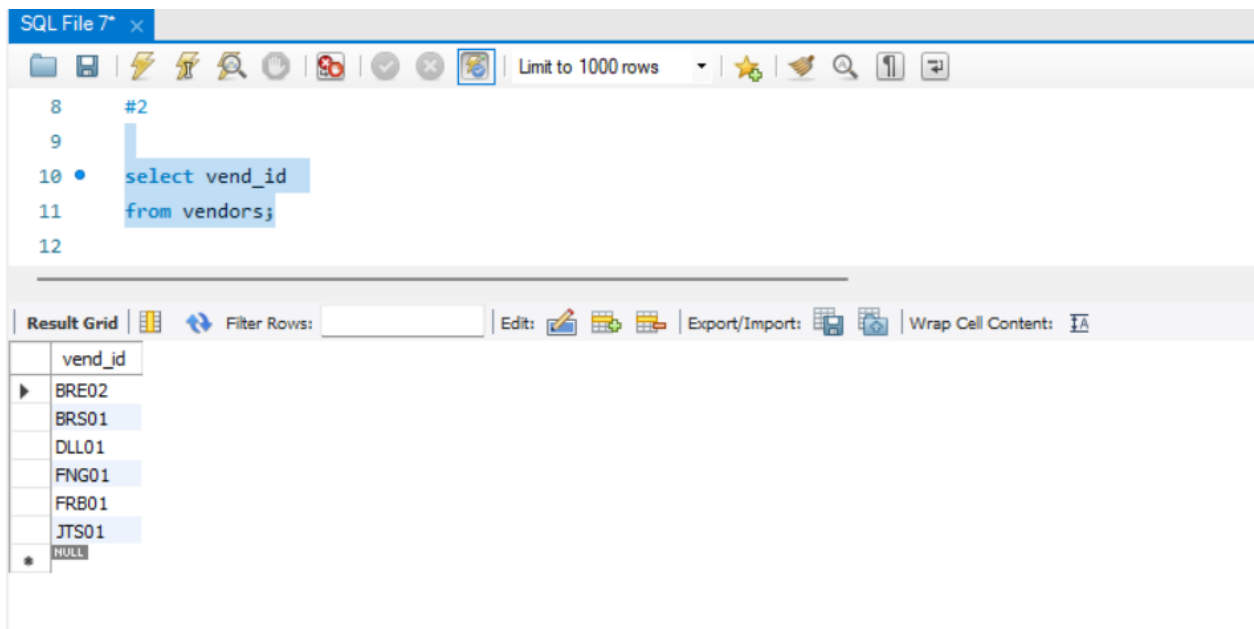

Write the SQL queries that answer the questions below (and on the reverse) using the following diagram:

1. Which customers do we have? List all the data we have about them.

[illegible]

2. What is the name of each of our Vendors?

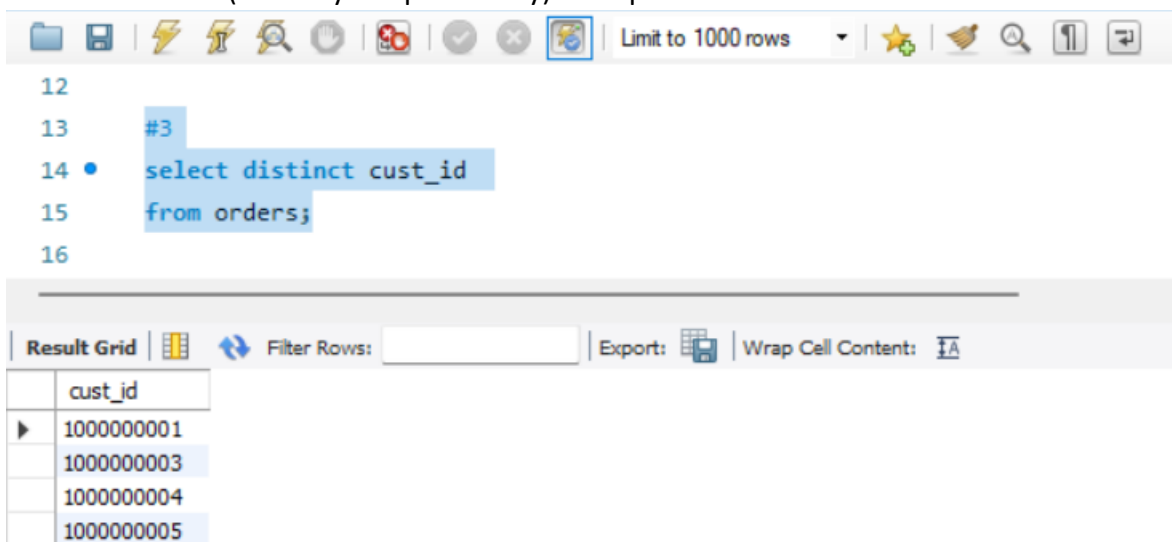

The screenshot shows a SQL editor window titled "SQL File 7". The query is as follows:

```
8      #2
9
10     select vend_id
11     from vendors;
12
```

Below the query, the "Result Grid" is displayed with the following data:

vend_id
BRE02
BRS01
DLL01
FNG01
FRB01
JTS01
NULL

3. What customers (listed by unique ID only) have placed orders?

The screenshot shows a SQL editor window titled "SQL File 7". The query is as follows:

```
12
13     #3
14     select distinct cust_id
15     from orders;
16
```

Below the query, the "Result Grid" is displayed with the following data:

cust_id
1000000001
1000000003
1000000004
1000000005

4. What are the names and prices of the products we offer? List from most to least expensive.

The screenshot shows a database query editor with a toolbar at the top. The query is as follows:

```
19  
20 #4  
21 • select distinct prod_name, prod_price  
22 from products  
23 order by prod_price desc;
```

Below the query editor is a "Result Grid" section. It includes a "Filter Rows:" input field, an "Export:" button, and a "Wrap Cell Content:" checkbox. The results are displayed in a table with two columns: "prod_name" and "prod_price".

prod_name	prod_price
Test Product	100.00
18 inch teddy bear	11.99
King doll	9.49
Prince doll	9.49
Queen doll	9.49
12 inch teddy bear	8.99
8 inch teddy bear	5.99
Raggedy Ann	4.99
Bird bean bag toy	3.49
Fish bean bag toy	3.49
Rabbit bean bag toy	3.49

5. What products are offered by a vendor that has an ID of *BRS01* in the database? Please return those products' name and price.

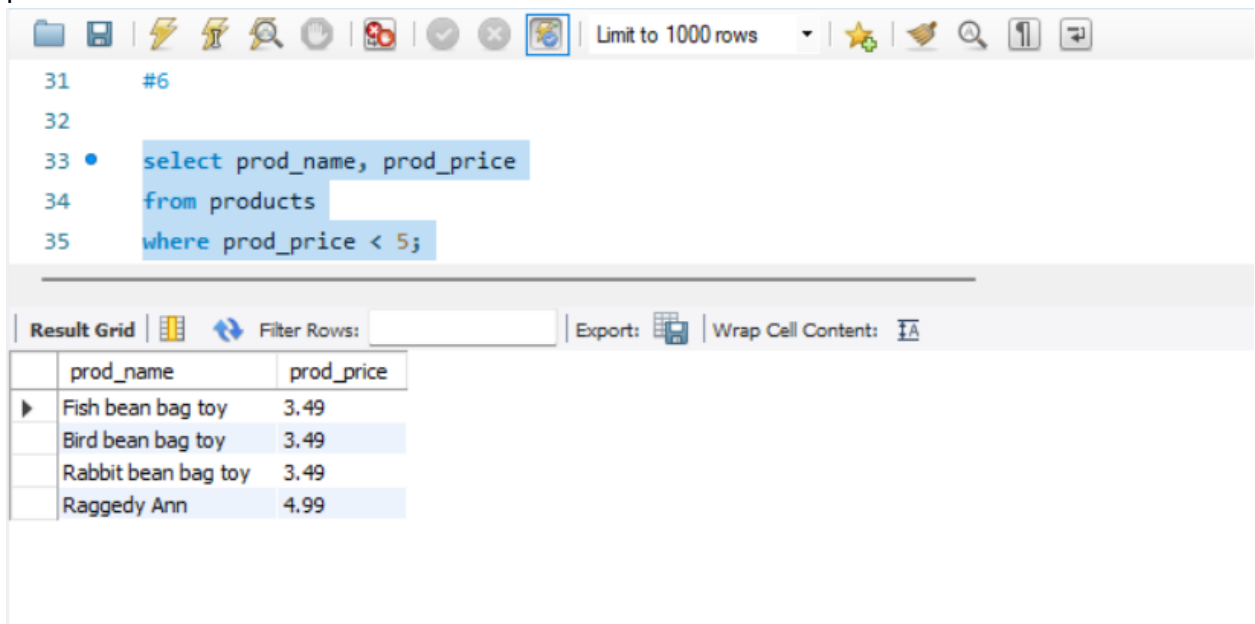

The screenshot shows a database query editor with a toolbar at the top. The query is as follows:

```
25 #5  
26  
27 • select prod_name, prod_price  
28 from products  
29 where vend_id = "BRS01";
```

Below the query editor is a "Result Grid" section. It includes a "Filter Rows:" input field, an "Export:" button, and a "Wrap Cell Content:" checkbox. The results are displayed in a table with two columns: "prod_name" and "prod_price".

prod_name	prod_price
8 inch teddy bear	5.99
12 inch teddy bear	8.99
18 inch teddy bear	11.99

6. What products do we offer that cost less than \$5? Please return those products' name and price.

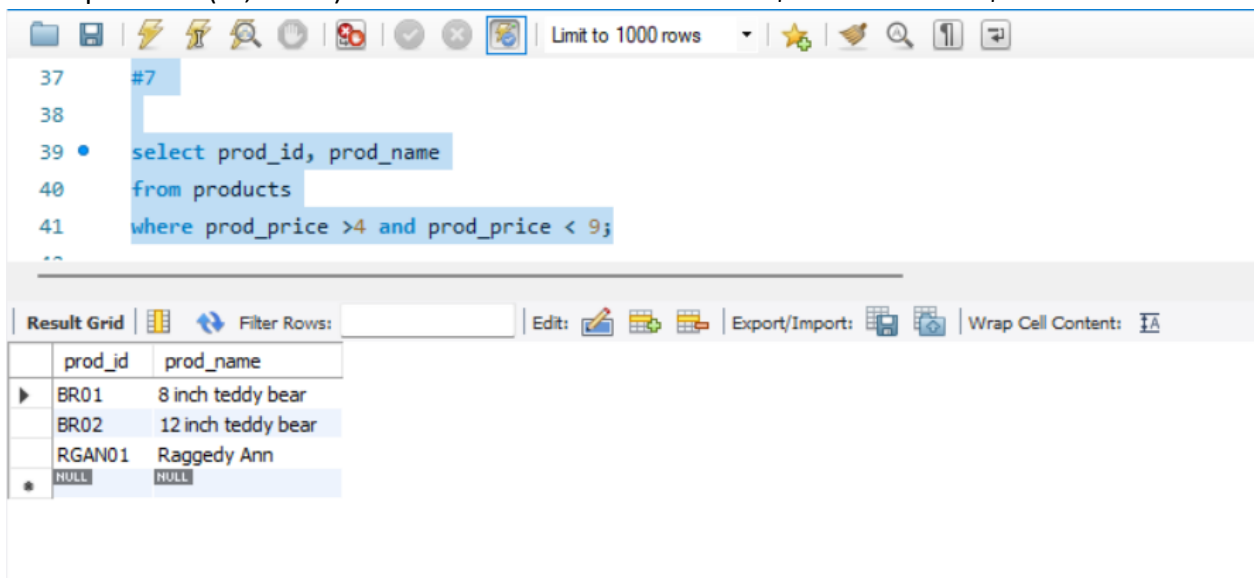

The screenshot shows a database query editor interface. The top toolbar includes icons for file operations, a search icon, and a 'Limit to 1000 rows' dropdown. The query editor displays the following SQL code:

```
31 #6
32
33 • select prod_name, prod_price
34 from products
35 where prod_price < 5;
```

Below the query editor is the 'Result Grid' section. It includes a 'Filter Rows' input field, an 'Export' button, and a 'Wrap Cell Content' checkbox. The results are displayed in a table with two columns: 'prod_name' and 'prod_price'.

prod_name	prod_price
Fish bean bag toy	3.49
Bird bean bag toy	3.49
Rabbit bean bag toy	3.49
Raggedy Ann	4.99

7. What products (ID, name) do we offer that cost more than \$4 but less than \$9?

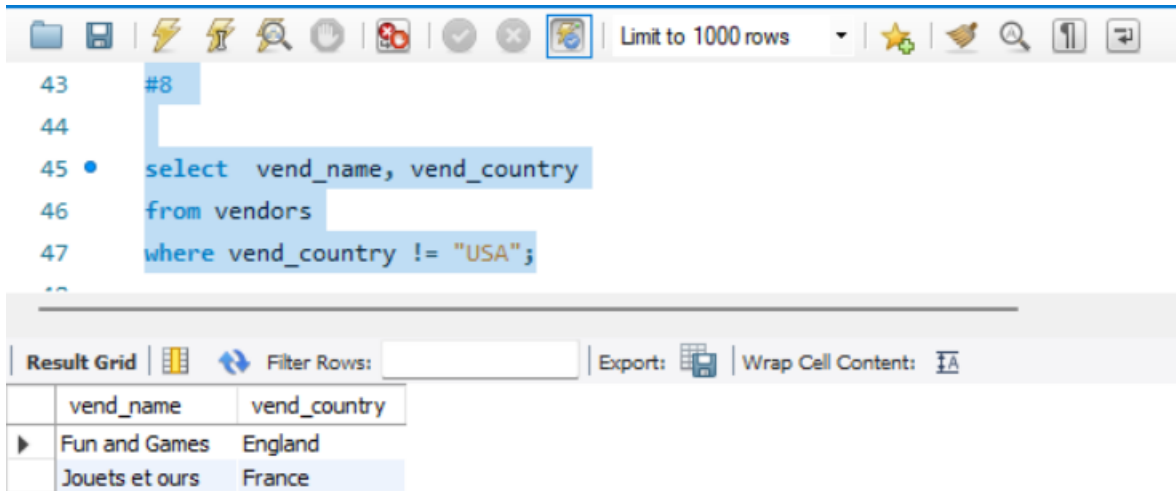

The screenshot shows a database query editor interface. The top toolbar includes icons for file operations, a search icon, and a 'Limit to 1000 rows' dropdown. The query editor displays the following SQL code:

```
37 #7
38
39 • select prod_id, prod_name
40 from products
41 where prod_price > 4 and prod_price < 9;
```

Below the query editor is the 'Result Grid' section. It includes a 'Filter Rows' input field, an 'Edit' button, an 'Export/Import' button, and a 'Wrap Cell Content' checkbox. The results are displayed in a table with two columns: 'prod_id' and 'prod_name'.

prod_id	prod_name
BR01	8 inch teddy bear
BR02	12 inch teddy bear
RGAN01	Raggedy Ann
NULL	NULL

8. Which vendors are located outside of the United States of America? Please return their name and country.

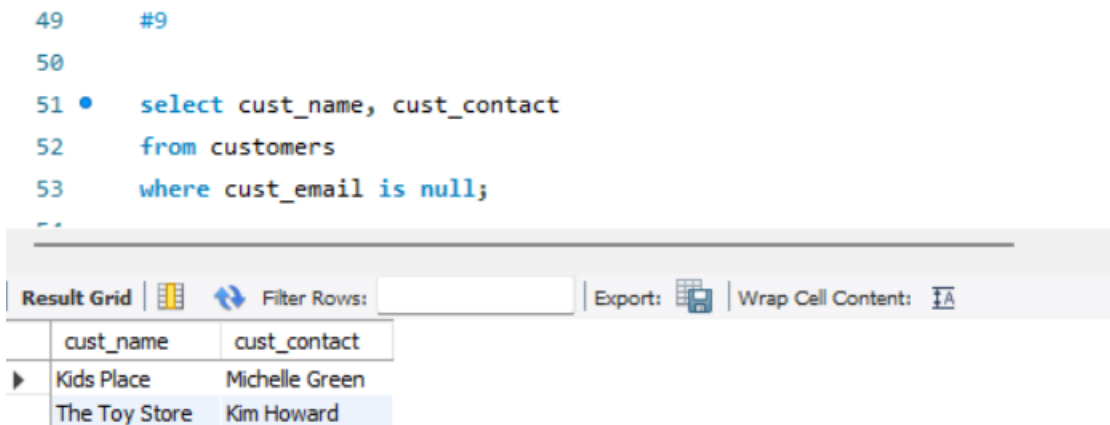

The screenshot shows a database query editor interface. At the top, there is a toolbar with various icons and a dropdown menu set to "Limit to 1000 rows". Below the toolbar, a SQL query is entered in a text area:

```
43 #8
44
45 • select vend_name, vend_country
46 from vendors
47 where vend_country != "USA";
```

Below the query editor, there is a "Result Grid" section. It includes a "Filter Rows:" input field, an "Export:" button, and a "Wrap Cell Content:" checkbox. The result grid displays the following data:

	vend_name	vend_country
▶	Fun and Games	England
	Jouets et ours	France

9. Which customers do not have an email address listed? Please return the customers' names and their contacts.

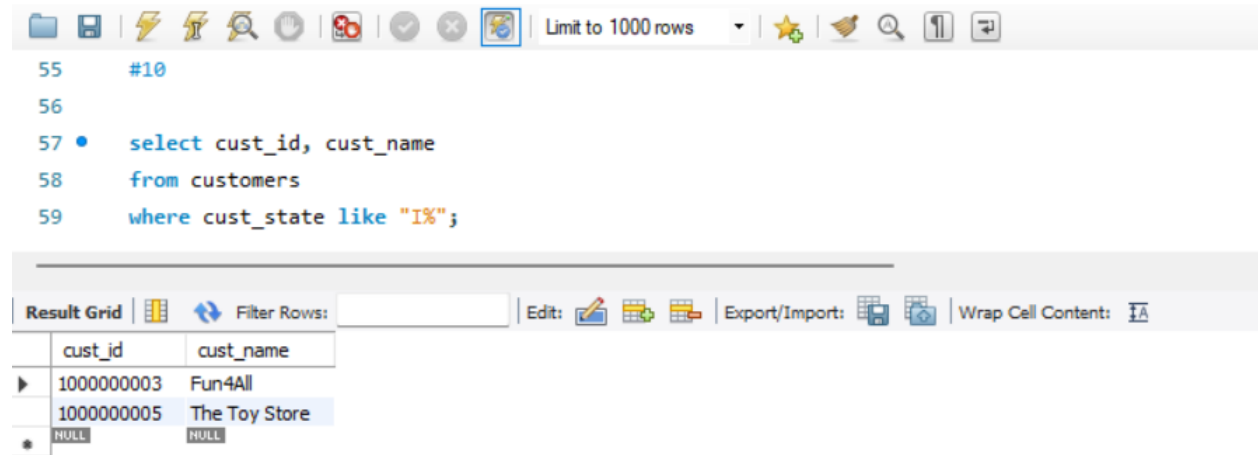

The screenshot shows a database query editor interface. At the top, there is a toolbar with various icons and a dropdown menu set to "Limit to 1000 rows". Below the toolbar, a SQL query is entered in a text area:

```
49 #9
50
51 • select cust_name, cust_contact
52 from customers
53 where cust_email is null;
```

Below the query editor, there is a "Result Grid" section. It includes a "Filter Rows:" input field, an "Export:" button, and a "Wrap Cell Content:" checkbox. The result grid displays the following data:

	cust_name	cust_contact
▶	Kids Place	Michelle Green
	The Toy Store	Kim Howard

10. What customers (ID, name) are located in a state that begin with the letter 'I'? Please return those customers' ID and name and the associated state.

The screenshot shows a SQL IDE interface. At the top, a toolbar contains various icons for file operations, editing, and execution. Below the toolbar, a text editor displays a SQL query:

```
55 #10
56
57 • select cust_id, cust_name
58 from customers
59 where cust_state like "I%";
```

Below the query editor, a "Result Grid" section shows the results of the query. It includes a toolbar with options like "Filter Rows", "Edit", "Export/Import", and "Wrap Cell Content". The results are displayed in a table with two columns: "cust_id" and "cust_name".

cust_id	cust_name
1000000003	Fun4All
1000000005	The Toy Store
HULL	HULL
